March
18-20
2009

Welcome to
**WebhostingDay 2009**
The most important Webhosting Event in Europe
**Get connected!**

## Welcome to WebhostingDay 2009

Come and celebrate **WebhostingDay's** fifth anniversary with us. What began in 2004 as a relatively small industry gathering has grown rapidly over the last years. Now, with more than 50 partners and over 1,000 CEO level visitors expected in 2009, **WebhostingDay** has grown to be the largest hosting event in Europe!

I am therefore happy to extend this invitation to you – as a valuable player in this industry – to attend **WebhostingDay 2009** and to learn first-hand the latest news and developments in the field directly from the top industry executives.

Take advantage of this opportunity. I shall look forward to meeting you from March 18-20, 2009 in Bruehl near Cologne, Germany.

Yours sincerely,

*Thomas Strohe*

*President intergenia AG, Chairman WebhostingDay*

■ Agenda

**WebhostingDay 2009** is organized into four sections, each of them offering information right from the center of the industry:

**main.FORUM** –
Taking place in the mornings with speeches held by successful masterminds from the industry.

**hosting.FAIR** –
The trade fair for the hosting business. Meet the **WebhostingDay** partners and their products.

**hosting.SESSIONs** –
Held in the afternoons with industry experts talking about news and facts worth knowing concerning all hosting and internet topics.

**hands-on.LABs** –
First impressions of new hardware and software solutions delivered by an expert and taking place in the afternoons.

Those informative parts of the event are complemented by exciting social events. For program details, please visit www.webhostingday.com.

■ Venue

Extraordinary events need a special framework. Therefore, **WebhostingDay** does not take place in a standard convention center with standard furnishing. Instead, the event location will be Phantasialand in Bruehl near Cologne, which comfortably fulfils all requirements to hold a conference with state-of-the-art infrastructure, while at the same time providing exotic and fascinating surroundings.

Phantasialand is located roughly 15 km from Cologne's city center. It can be reached by car via a separate highway exit. You can also get there easily from the Bruehl train station or the Cologne-Bonn airport.
